Grading Nearly Finished.

The grading of the last section of the Great Falls and Old Dominion railway is nearly finished and Manager Boteler states that it will be ready for the laying of track in ten days. He also states that the work of equipping that part of the road will require about a month and cars will be in operation, through to the Great Falls, about the first of July next. At present the road is in operation to a point a short distance above Difficult run. The road is at present of single-track equipment, with side tracks and switches at given points along the route. It is stated that after the road has been completed to the falls, bids will be solicited for the laying of a parallel track the entire distance from Rosslyn to the end of the route.
